

## Legal coverage for surrogacy and reproductive assistance

One of the many benefits of your legal plan

It's one of the most emotionally challenging experiences a person or a couple can go through. You're growing your family, either through surrogacy, egg, sperm, or embryo adoption, and you want to focus on the here and now: the doctor's visits and the sonograms, the hoping, and the building of a dream.

We realize the complex emotions playing out in this journey and want to offer support by covering legal services and court work related to reproductive assistance matters.\*

Our experienced network attorneys will help establish the rules around lifestyle and future relationships within this highly unsettled and contested legal terrain.

### Here are some legal issues to consider in surrogacy and reproductive cases:

- States have different laws surrounding surrogacy and the adoption or donation of gametes
- Consideration of the rights and obligations of the intended parents and surrogate mother

- Surrogacy attorney fees range from \$5K to \$15K and vary by state, surrogacy agency, and by the law firm<sup>1</sup>

MetLife Legal Plans covers phone consultations, court appearances, and document reviews with zero out-of-pocket costs. We provide the mental and emotional security that comes with knowing an attorney is here to help.

### Consider this scenario:<sup>2</sup>

*Ava and Jade released a simultaneous sigh of relief. They had just spent two hours with their attorney to understand their parental rights should Jade's IUI treatment from a sperm donor result in the conception of a child. They didn't want to go through the emotional labor of selecting a donor until they were fully aware of their protections and right to privacy. Ava's legal plan took the hassle and worry of finding an attorney out of the equation. Now, the couple can move ahead with their plans for building a family with confidence and excitement.*
